

MBTA Lynn Commuter Rail Station Improvements Program

Advisory: Overnight Work

The Lynn Commuter Rail station on the Newburyport/Rockport Line is a key transportation hub for the City of Lynn and the MBTA bus system. We are planning significant improvements to the station's structure, safety, functionality, and accessibility that will also reduce station maintenance costs.

The project team would like to advise the community of upcoming demolition work expected to begin Sunday, November 6th. Demolition crews will be working from 9pm to 5am.

The scheduled demolition work will be contained between the Lynn Station and the Parking Garage.

Due to equipment required to perform this work, lights and moderate noise levels can be expected.

The scheduled demolition work is anticipated to last a minimum of four weeks.

Thank you in advance for your cooperation. We appreciate your patience as the MBTA takes this important step in renovating Lynn Station.

Should you have any questions please feel free to contact the Lynn Improvements Program Team at LynnStation@mbta.com
